-

Learning Outcomes

1. **Understanding Website Structure**
 - Learned how to organize website elements (e.g., header, navigation bar, content, footer).
 2. **Improved Design Skills**
 - Gained experience with wireframing tools like draw.io
 - Learned to balance aesthetics with functionality.
 3. **Responsiveness**
 - Understood the importance of designing for both desktop and mobile users.
 - Learned to create layouts that adapt well across different screen sizes.
 4. **Attention to Detail**
 - Ensured that all required elements were included as mentioned by the guidelines.
 - Created a well developed, low-fidelity wireframe.
-

Challenges Faced

1. **Aligning Elements Across Pages**
 - Challenge: Ensuring consistency in design while accommodating the unique content of each page.
 - Solution: Created a common template with uniform headers, footers, and navigation.
2. **Designing for Responsiveness**
 - Challenge: Balancing desktop layouts with mobile-friendly designs.
 - Solution: Adopted a mobile-first approach, ensuring scalability for larger screens.

3. Understanding Requirements

- Challenge: Interpreting the assignment's expectations (e.g., lists, forms, referencing).
- Solution: Reviewed guidelines multiple times and researched similar designs for inspiration.

4. Tool Limitations

- Challenge: Limited access to advanced wireframing/editing tools.
 - Solution: Used draw.io to annotate a clear and effective wireframe.
-

Wireframe Descriptions

1. Home Page

Purpose: Introduces the store and its offerings.

Content: Brief introduction, main image, three subsections highlighting key features, bullet points, and a numbered list.

Design: Visually appealing with a large header, clear navigation, and well-organized content.

2. About Us Page

Purpose: Provides detailed information about the store's branches, operations, and history.

Content: Branch details (location, opening hours, descriptions), a summary table with headings and footer.

Design: Includes maps and images of the specific branch to enhance user experience.

3. Upcoming Games Page

Purpose: Highlights new and upcoming game releases for users to pre-decide.

Content: Images of games with release dates displayed on hover, an introductory paragraph.

Design: A simplistic grid layout for showcasing game thumbnails and images.

4. Consoles Page

Purpose: Showcases the latest gaming consoles available for purchase.

Content: Images of consoles with hover effects to display prices, detailed descriptions of products.

Design: Grid layout for easy browsing.

5. Gaming Peripherals Page

Purpose: Highlights gaming equipment like keyboards, mice, and headsets.

Content: Images of peripherals with hover effects for prices, brief descriptions.

Design: Consistent grid layout similar to the Consoles page.

6. Games Page

Purpose: Lists all available games in the store, categorized by popularity.

Content: Images of games with hover effects to show descriptions, clear categorization.

Design: Responsive layout ensuring easy navigation.

7. FAQs & Queries Page

Purpose: Answers common customer questions and provides a form for additional queries.

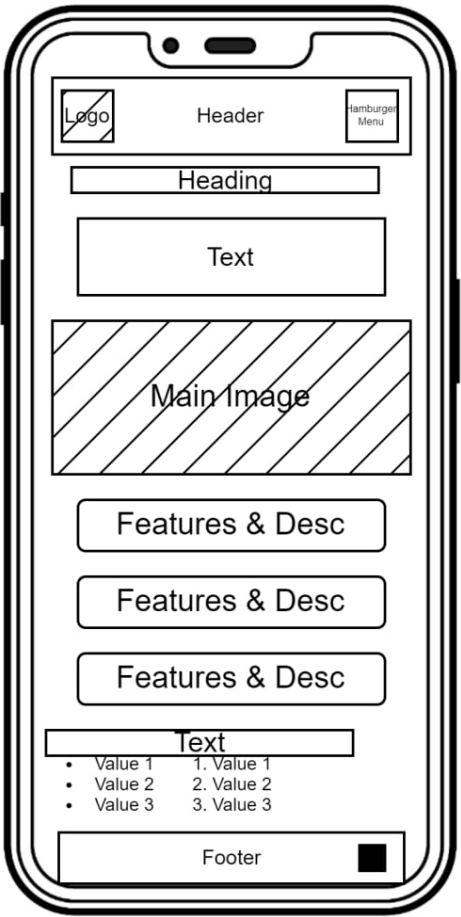

Content: Frequently asked questions with answers, a simple form for submitting queries.

Design: Split into two sections (FAQs at the top, form at the bottom) for clarity.
